

Dish Dish Stools

2017

Stools

The BassamFellows Dish Stools are companion pieces to the Pipe Chair collection. The stools have the striking silhouette and strength of an A-frame stance. The tubular stainless-steel structure holds a solid wood seat that is carved in two directions. From the top, the seat is a perfect circle dished for ergonomic comfort while underneath, it is carved to integrate with the frame, melding two materials together – structure and wood. Originally the design brief required the stools to be appropriate for both indoor and outdoor use. Outdoor versions are available in appropriate woods such as Teak or Iroko. The dining height stool/table is stackable.

CB-215 Dish Stool/ Side Table

W 15 3/4", 40 cm
D 15 3/4", 40 cm
H 18 1/8", 46 cm
